PURPOSE OF REPORT

The State Personnel Board (SPB) has prepared this report in compliance with California Government Code Sections 19237, 19405, 19705, 19792.5(b), and 19793 to inform the Governor and the Legislature about the composition of the state civil service workforce.

The tables on the following pages provide data on overall statewide racial/ethnic, gender, and disabled representation for all full time, part time, and intermittent civil service employees from June 1996 through June 2004; statewide composition among the major occupational group categories used in the state civil service; appointment and promotional rates over the past two fiscal years; information regarding the salary distribution of employees by gender and racial/ethnic group; and employment goals for persons with disabilities as well as Upward Mobility appointments. The source of all data is the State Controller's employment history database.

This report may be viewed or printed from the SPB's Web site on the Internet at <http://www.spb.ca.gov/civilrights/statistics.htm>. Persons without access to the Internet may contact the SPB to request copies at (916) 653-1621.

SUMMARY

Between June 30, 2003, and June 30, 2004, the state civil service workforce decreased by 6,102 employees (2.8%), from 215,677 to 209,575. This was primarily the result of state budget reductions, elimination of vacant positions, and a freeze on hiring. During this period, the most significant changes in workforce representation occurred for Whites and Hispanics. Whites decreased by 0.7%, from 53.0% to 52.3%, while Hispanics increased by 0.3%, from 19.7% to 20.0%.

Representation of other groups changed as follows: Filipinos gained 0.2%, increasing from 5.4% to 5.6%; persons with disabilities declined by 0.2%, from 7.7% to 7.5%; Women declined 0.2%, from 47.4% to 47.2%. There was no change in the representation of African Americans (11.1%), Asians (7.7%), Pacific Islanders (0.5%) or American Indians (0.3%).

Government Code Sections 19795 and 19797, require that state departments annually conduct an analysis to identify any statistically significant underutilization of racial/ethnic or gender groups that might indicate discriminatory employment practices. This workforce analysis is required of all State departments with fifty or more employees and is due in July of each year. State workforce representation in each department is compared with California relevant labor force representation in over 200 occupational categories. (A list of the major occupational groups used for statistical reporting is cited at the conclusion of this report.) Where there is significant underutilization identified, departments must examine their recruitment, selection, hiring, and other employment practices to determine whether any non-job-related employment barriers are causing the underutilization. When unlawful employment barriers are identified, departments must take action to eliminate them. This process is undertaken to ensure that federal and state non-discrimination and equal employment opportunity legal requirements are met.

Government Code Section 19232 requires State departments to establish employment goals for persons with disabilities. As of June 30, 2004, there were 15,689 state employees with disabilities (7.5%). California labor force representation is estimated to be 16.6%. To achieve labor force parity, the State needs to employ 19,100 more persons with disabilities. Information on employment goals and the underutilization of persons with disabilities in state departments are included on pages 15-17 of the report.

During the 2003-04 fiscal year, there were 56,393 state employees in the traditionally low-paying occupations that qualified for the state Upward Mobility program*. Of these, 1,127 (1.9%) advanced during the year to entry professional, technical, or administrative positions, thereby achieving the objective of the Upward Mobility statutes. Upward mobility advancement is derived by determining the number of appointments from classes in low-paying occupational groups to professional, technical, and administrative positions. This compares with the 2002-03 fiscal year, when 2,883, out of 59,009 eligible employees (4.8%) achieved an Upward Mobility objective. The 2.9% decline in upward mobility appointments is primarily due to the state's hiring freeze, elimination of vacant positions and budget constraints and parallels the downsizing of the state workforce, which declined by 2.8%.

* As defined in State Personnel Board Regulation 547.82 (f), "Low-Paying Occupations" mean the following groups of classifications identified in the California Civil Service Pay Scales (Pay Scales), 50th Edition, as published by the California Department of Personnel Administration: Horticulture; Office and Allied Services; Custodian and Domestic Services; Mechanical and Construction Trades; and bridging and career development classifications in other occupational areas.

OVERALL REPRESENTATION

The following provides data on statewide representation for all employees in the state civil service. Changes in representation from June 30, 1996, to June 30, 2004, are displayed for all groups in the following table:
